3. [REDACTED] requested that the Divisions submit a report of activities for their offices covering the period 1 October 1958 through 31 March 1959. He emphasized that the reports should be limited to items of major significance and outstanding value and that all minutia and trivia be omitted, with no repetition of material previously submitted. He pointed out that any major difficulties, which could not be resolved by the Divisions, should be stated. The reporting of statistics should be held to a minimum with the exception of the Real Estate & Construction Division which should include projects by name and dollar value completed during this period as well as those still in process of completion. He asked that the reports be generally brief and submitted to this Staff by 26/27 March 1959.
